

## Chemineer XPress Portable Mixers Offer:

- 48-hour delivery on standard configurations
- 30-day "No Risk Trial"
- Trade-in/Trade-up program
- Total support for your mixing needs
- 50+ years experience in mixer technology
- Industry standard NEMA, off-the-shelf motors

## Features and Benefits

- **Motors:** Direct drive Models 10XPB, 10XPC & 30XPC; Industry standard, off-the-shelf, NEMA electric or air motors.
- **Gearmotors:** Gear-reduced Model 40XPC; Low maintenance integral motor/gear drive offers 350 rpm nominal output speed.
- **Cast Handle:** Integral cast aluminum handle for easy maneuverability and positioning.
- **Mount:** High-strength cast aluminum C-clamp or cup plate mount offers 3-dimensional positioning with positive lock adjustability. Bung-mount mixer designed to fit all 2" NPT drum openings also available.
- **Shaft:** Rugged, heavy-duty shafting manufactured from 316 SS. 5/8" or 1" diameter shafting straight-ened to .002" per foot to reduce vibration and extend unit life.
- **Impeller:** A high-efficiency impeller (SC-3) or marine propeller (JP-3) is standard depending on model. The bung-mount mixer, 10XPB, is available with a collapsible propeller.
