Industries we serve

● **Biotech and Pharmaceutical**

Offering FDA approved equipment and high quality CIP systems applicable to industry standards.

● **Food and Beverage**

Equipment designed for various food manufacturing processes with high quality standards to protect your product.

● **General Industries**

Energy generation, mining, semi-conductor and refineries / ore processing are serviced by our complete suite via our global partners.

● **Waste Water Treatment**

Supporting end user local authorities, the national provider Irish Water and the key OEM contractors responsible for the substantive upgrades to our national network.
